THE SCHOOL BOARD CRISIS.

Of the twenty-one members of the School Board, one died, one resigned and one was unseated by the Court of Appeals which declared his election void. Of the remaining eighteen members, eight absented themselves and refused to attend regular meetings of the board, claiming that they could thus break the lawful quorum required to transact the business of the board. The ten, after adjourning regular meetings from day to day in a vain effort to secure attendance, took the ground that as half of the members elect and a majority of the members remaining in the board, they constituted a quorum. They elected a man to fill the place vacated by the death of a member at large, and now propose to proceed with the business of the board while the eight absentees propose to fight the acts of the majority in the courts.

A majority from the represented States was held to be a quorum in Congress during the war when a dozen States were unrepresented. But it does not follow that the courts will declare ten men a quorum capable of filling a vacancy in a body of twenty-one members when one has died. one resigned and one been unseated by the courts.

It must be said, however, that the ten members who attend are trying to do their duty, while the minority are pursuing the rule-or-ruin policy which they adopted when they tried in vain to get the Supreme Court to demolish the board. The advice of some of the best lawyers and if they are not sustained by the courts and by public opinion their defeat will be the triumph of an extremely disorderly and destructive policy on the part of a factious

CAUSES FOR CONGRATULATION.

The people of this city have especial cause for congratulation in the election of President of the Board of Public Improvements, yesterday, which resulted in the success of BURNET over JOYCE by a large majority.

Although the total vote was light the majority was heavy, demonstrating that the verdict of the voters was overwhelmingly against the Republican candidate and the method of his selection by the party machine. The most significant points in the election, however, were the gain of votes by Mr. BURNET in the wards of Republican bosses and the fact that in wards where usually is found the greatest indifference to municipal elections the votes were heaviest in proportion. The first condition proves that a large amount of independent voting was done and the second that the business and professional men. who may be called the lethargic elements in practical politics, were active in the exercise of the franchise. Both of these conditions are full of encouragement as showing increased responsiveness on the part of substantial and intelligent citizens to the needs of the city's govern-

The result of the special election involved, therefore, a stern rebuke to an unsavory set of machine managers, the triumph of decency in the conduct of discr best candidate for the office by voters acting independently of party affiliation. It remains only for Mr. BURNET to vindicate by his official record the wisdom of the people's choice.

putting another well qualified and efficient man in the office of Street Commissioner. It is as important that the Board of Public Improvements should be composed of such men as that the President of the Board shall be a first-class civil engineer and a first-class man. Politics should have as little as possible to do with the choice of the man and nothing at all to do with his official action afterwards.

GENERAL CONFERENCE.

SUBJECTS OF GREAT INTEREST TO METRO-DISTS DISCUSSED TO-DAY.

Debate on the Proposition to Confer With Representatives of the Episcopal Church on the Subject of Christian Unity-Com-

The General Conference resumed its sessio n Centenary Church this morning, and th attendance indicated that there was no abate-ment of interest in the session, for all the pace on the floor of the auditorium not occupied by the members of the conference and the gallery was crowded with Methodists who vere interested in the proceedings.

The session was opened with prayer, which

was led by Dr. Evans of Memphis.
Dr. Hargrove took the chair and occupied it until the minutes of the previous day were read and approved, and Dr. Duncan of South Carolina was then chosen to preside to-day.

ng, for the question of accepting or declining the proposition of the Episcopal Church to appoint a committee to confer with a committee from that church on Christian unity was opened again by the motion of Dr. Hammond of Missouri to reconsider the report of the ommittee which rejected the propos declared that such a conference was not desirable. Dr. Hammond's motion awakened rather a lively debate, and some sharp re-

rather a lively debate, and some sharp remarks were made concerning the church which made the proposition and undertook to say that the Methodist Church should recognize historical erders and admit that it was without orders.

One of the members said that Dr. Phillips Brooks himself, a man who stood like Saul above the others in the convention of the Episcopal Church, had, declared that the proposition was "a pleee of impotents impertinence and impertinent impotency," and he agreed with Dr. Brooks.

When the debate had been in progress some time Dr. Rogers of Baitimore said he thought the motion

the motion

was not understood. It did not mean to accept the proposition, but simply to return a more courteous answer than the one which had been adopted in the form of a committee report. He moved the previous question.

Dr. Duncan said the getleman could not make a speech and then moved the previous question.

Dr. Rogers advanced down the aisle and said: "Mr. President, I did not make a speech. I simply gave my views on this question and moved the previous question, and I wish the chair would not rebuke me in the presence of this conference unless I invade its privileges."

ence of this conference unless I invade its privileges."

Bishop Duncan rose and said: "Dr. Rogers stated his views on the question before the house, and then moved the previous question. He certainly was out of order and the chair simply so deciared his motion without any reflection upon Dr. Rogers."

Dr. Candler moved that the question be postponed until 12 o'clock in order that the memorial might be sent for. Dr. Jones, the chairman of the committee which had considered it, had left it at his room, and he did not think the conference ought to act wishout knowing just what the proposition of the Episcopal Church was.

The sentiment of the meeting was that it knew enough about the proposition and was prepared to act. The motion was voted down and the previous question was moved. The conference decided to suspend the rule, then to reconsider, and the motion was made to refer the memorial back to the committee which had considered it.

to 114. The report was then readopted by a vote of 124 to 108.

Reports from special committees were called for, but none were handed in.

THE COMMITTEE ON FUBLICATION

In and submitted a report yesterday which was before the house when it adjourned, and it was taken up. It referred to the application of the Texas Conference for Methodist newspaper, which was denied. The committee reported against a proposed change in the management of the publication house. A majority of the committee was in favor of continuing the management of the business as it is now, with a book agent in charge and a general manager. The minority report was in favor of appointing two book agents, and in order, as two men were needed to run the business, that the conference should have the power to appoint both its managers. The majority of the committee opposed a change because the publishing house was a success and they believed in letting well enough alone. The welfare of the publishing house is an important matter to the church, and nearly the entire morning was taken up in the discussion of the advisability of changing the mercantile system in this institution. The vote came on the minority report, and Dr. Duncan was unable to decide on on the viva vote came on the inforty report, and pr. Duncan was unable to decide on on the viva voce vote who had carried, but on the standing vote the minority report was adopted by a vote of 139 to 74.

a vote of 139 to 74.

REV. DAVID D. WALLER
of the British Wesleyan Conference took
leave of the conference, and before he left he
made a short address of farewell. He said people's choice.

The Mayor and Council can supplement the good work of yesterday's election by putting another well qualified and effigrand old man, but that reverend gentleman grand old man, but that reverend gentional who is not here is the peer of any man here or anywhere." He spoke eloquently of the work of the American Methodist Church and said that when he returned he would bear with him good tidings of the affairs of the church.

church.

Dr. Stone of the Canadian Conference spoke of the work in Canada and particularly of the system of church government and the differences between the system in this country and Canada. He said he was glad to learn of the success of the church in the South, for he knew of obstacles there, which had to be overcome, but he saw they were being brushed away, and great success was the promise of the future.

Dr. Duncan responded gracefully, and Dr. Stone took his leave.

tension.

Resolutions requesting that such changes be made in the Discipline as to admit the appointment of a conference missionary were considered, but the committee recommended non-concurrence.

As to the suggestion that the conference should take steps looking to the union, of the different forms of Methodism in foreign countries the committee made an adverse report. With reference to the same subject, which was suggested by the Histop of Japan, the committee recommended an annual conference of the representatives of the different branches of M ethodism there whenever in his judgment he shought such a conference necessary.

in his judgment he thought such a conference necessary.

Dr. John was opposed to granting such extended power to the Japannse at so early a time in their religious life. The conference in China, which had been made a general conference, had done an injustice to the missionaries, because the native preachers had been able to outvote them. He feared that if the Japanese Conference was given equal powers that the same results would follow, because the native preachers had not any conference training and were not sufficiently imbused with the spirit of the church. He thought the conference should give them at least five years more before it granted the powers suggested by the committee.

As the conclusion of Dr. John's speech the conference adjourned for the day.

Those who have seen her play or attended the shearsals say that it is very strong. The sest, which has been published in these columns, contains good material. Miss Marceau, peaking of the performance, said that she aid no intention of appearing herself; that er friends persuaded her to do so. She does not pretend to rival great stars. her friends persuaded her to de so. She does not pretend to rival great stars. She does not pretend to rival great stars. She declares that she is an authoress, and that she is willing to stand or fall on the merits of her play, not on her ability as an actress. The advance sale has been good and the prospects for to-night are that a clever performance will be given to a representative audience. Miss Marceau has dramatic ability, as she has shown in private before.

"A Pair of Jacks" is the surprise of the season at Pope's. It is crowding the house at every performance. The play contains many amusing scenes and is an enjoyable affair all through.

The breweries have since consolidated, and the practice of advancing money to men to start saldons in order to sell their beer has almost entirely ceased. The result is that many saldons which the breweries were backing have been closed. Then Mr. Sexton called the entire police force of the city to his assistance during his last year in office, and had the saldon-keepers arrested in droves and dragged into police stations in order to make these collections. I have not resorted to any such summary methods, and have worked without calling in the police department to my aid. No doubt by adopting the same tactics I could also have collected considerably more money in saldon licenses. While Mr. Sexton collected more saldon licenses during his last year in office than I did, it was the only year of the four he served in which his collections from that source equalled mine for last year, despite the fact that during every year of his term there were 200 more saldons in the city than there were 200 more saldons in the city than there were last year. During his first year, when he and his deputies were new to the work, as I and my men were last year, his collections from which to collect. Fourth year (1888-89)

Ourling the year just ended (1889-1890) we collected \$80,732,25 from the salcons. This is \$52,976,52 less than the collections by Mr. Sexton during the preceding year, which was by far the ingress of his term. Our collections were greater, however, than any other year of his term and surpassed his first year by \$61,211.52, aithough he had 200 salcons more from which to collect than we had. On merchants' and manufacturers' licenses we beat his last year \$21,587.39, and on insurance we surpassed him by \$10,594. That means that we collected licenses from 105 more insurance companies than he did. The grand totals for licenses, salcon licenses and all, were: Ziegenhein the past year, \$1,685,693.53, and Sexton the preceding year, \$1,682,113.48, a showing in our favor of \$83,580.05. Comparing our first year with his first year we beat him on totals by \$215,969.15."

NEW YORK, May 21.—Yesterday's meeting of the Trunk Line Executive Committee with the Lake men was the most fruitful that has been Lake men was the most fruitful that has been held this spring and the belief is now that the lake and rall difficulties will soon be settled. "The granger roads are thoroughly tired of losing rates," one of these present said yesterday, "and the great Northern rallway has come around. Mr. Hill has finally agraed not to insist on a lo-cent differential for the Duluth route against that by way of Chicago. This is half the battle won. He will restore the rate to the basis of 71 cents from New York to St. Paul via Duluth on the understanding that the Chicago lake and rail lines don't make a lower rate than that. That is, they may make the same rate, and there is no doubt that they will. So the differential will practically be abolished." But several things have got to be accomplished before this end is reached. At yesterday's meeting the lake men got from the trunk line a promise that the lake and rail East-bound rate from Chicago should be restored. Open cuts had been made on fifth and sixth chass freight. It was agreed yesterday that after June 2 the rates for those classes shall be held firm at 25 and 90 cents respectively Chicago to New York, and at 27½ and 22½ from Duluth to New York, and at 27½ and 22½ from Duluth to New York, and it rates via Duluth and Chicago to St. Paul upon condition that the trunk lines in the meantime guarantee that none of, the roads via Chicago make a lake and rail rate from New York of the St. Paul lower than 71 cents first-class. The Executive Committee will meet again to-day for this purpose, and the main difficulty it has to contend with is to bring the national dispatch into line. The indications yesterday were that the Grand Trunk was tired of the 64-cent rate, and was willing to make concessions. Mr. Hill's main object, it is well known, was to bring this result about, and there seems to have been an understanding before yesterday's meeting held this spring and the belief is now

suit about, and there seems to have been an understanding before yesterday's meeting was called.

Before the meeting of lake men in Buffalo on next Tuesday, there will be communication with the Granger roads to learn what rates they will agree to. If they make it 71 it will mean that their portion of the through rate from New York to St. Faul will be only 20 cents first-class. It is believed that the Western lines were earnest in restoring rates between Chicago and Missouri River points on May 19. If the conference about Chicago-St. Paul rates pan out the freight troubles in the West will come to a speedy end. June 2 is the date set for the arrangement togo into effect. Having settled the freight rates it is believed that the passenger rates in the West can be easily restored. All this must be done before there is any show of reorganization of the interstate commerce railway association. Some of the trunk line officials thought that chances were now good for accomplishing this result.

THE JAPANESE EMPIRE.

A PROFESSOR OF THE IMPERIAL UNIVER-SITY GIVES HIS VIEWS.

People of Japan in Clase 8 the Government—The New Constitution

St. Louis several days ago a gentle-man, who, during the last ten years, has occupied a high position in the Imperial Uni-versity of Japan at Tokio. Prof. Jas. M. Dixon has, during that period, occupied the chair of English literature, and is thorough ly familiar

with Japan and its people. In an interview with a representative of the Post-Disparch Prof. Dixon said: The people of Japan are more closely allied in feeling and sympathies with the United States than with any other foreign nation.

THE YOUNG MEN educated abroad, the newspapers, and the

general sentiment of the population all favor America and American influences, but with the Government the case is quite differ fancy so much power being given into the hands of the people, and in the constitution that went into force on February il of the present year the model of the German empire was adopted. Japan is now a conwas adopted. Japan is now a constitutional and no longer an absolute monarchy. The leading spirit in modern Japan is undoubtedly Count I to. It was he whe, along with his future colleagus, Count Incure, escaping against orders from Japan in the sixties, landed in London to examine into the boasted greatness of Western nations. Profoundly impressed, from the first landing, by the overwhelming superiority of modern civilization to anything in Japan—the empire which had seemed invincible since the rude repulse of the Mogui Tartars in the tweifth century—these two daring spirits returned to tell their comrades how hopeless a striggle against ench forces would be. Their bold outspokenness nearly cost them their lives, but finally their gavice prevailed.

would be. Their bold outspokenness meanly cost them their lives, but finally their advice prevailed.

The beginnings of Count Ito's Western education were English, and this is the Western language in which he and Count Inouy are at home. Naturally British institutions would be first examined for possible imitation by these statesmen, and after Great Britain those of the United States; but neither pleased them completely. A tour of inspection round the world, made in the years 1879-81, impressed Count Ito with the conviction that American and British institutions were remote from the conditions which made them safe models for Japan.

For the past decade Berlin has been the chief place of pilgrimage for the Japanese traveling official.

Here was the natural model to study in reconstituting Japan, and, little by little, changes, more or less of a German type, were introduced. A conscription law in 1853, the creation of a nobility in 1884, the influx of a host of German experts and advisers in the closing years of the decade 1889-90, all showed the trend of affairs. During this eventful time Germany was fortunate in being represented at the Mikado's court by the ablest of the foreign diplomatic corps.

The result has been that all the official classes are now under German influence. The trade is largely in the hands of the British, but the Germans are making inroads upon it.

THE NETSEM OF BUSINESS transacted by European houses in Japan 18 constantly changing. The old lavish extravagance has about disappeared, and people are contented with smaller profits. The ancient prejudice against foreigners is a thing of the bast, and Europeans are safe anywhere in the Japanese Empire. Some sort of permission to reside in certain cities has yet to be obtained, as is instanced in the case of the famous Edwin Arnold, who lives in Tokio in the house next mine, he being nominally a teacher in a Japanese family, it being necessary for him to do something of this kind in order to secure a residence. The Japanese are rather students

eral days. To-morrow evening he will address the Sunday school of the Second Presbyterian Church on the subject of "Mission Work in Japan."

ANNUAL ADDRESS OF THE PRESIDENT

THIS MORNING.

Ministers Rebuked for Setting a Bad Example—The M. E. Conference Criti-cised—The Lathrop Crusaders Defended -A Male Delegate Admitted in a "Crippled and Limited" Condition.

The second day's session of the eighth annual convention of the Women's Christian Cemperance Union of Missouri opened at the with President Mrs. C. C. Hoffman of Kansas City in the chair and a large attendance present. After the consecration service, which was led by Mrs. A. V. Linville of Edina, the roll-call of officers was made. The delegates were then seated in the districts to which they belong, the various districts being marked by cards. Several committees were by the President, Mrs. Hoffman. and then Mrs. F. H. Ingails of this city made the address of welcome. She cordially extended to the delegates the well-known hospitalities of the city, and assured them of the warmth of their welcome. A very pretty re-sponse was made by Mrs. C. Dobyns of Shei-

The report of the first district prepared by Mrs. S. Tatlow of Edina was read by the Secretary, and showed the district to be in a rous condition.

The President, Mrs. C. C. Hoffman, stated that she had learned that Mr. James W. Cover, who was present, was the regular rep resentative of the Cameron Union. It was the second time in the history of the union that a man had been in the convention as a delegate. She wanted to know the sentiment of the convention in regard to admitting Mr. Cover as a delegate.

A delegate moved that Mr. Cover be admitted to all the privileges of the convention.

A delegate moved that Mr. Cover be admitted to all the privileges of the convention.

Mrs. Abeles raised the point that a man could not under the constitution of the union be admitted to all the privileges of the convention. He could not be permitted to vote. Mrs. Hoffman wanted to know whether Mrs. Aboles desired to amend the motion.

Mrs. Abeles replied that she merely desired to know whether it was possible for a man under their constitution to vote at their conventions.

Mrs. Hoffman replied: "Under our constitution he certainly cannot vote. But is it the sentiment of this convention that Mr. Cover shall be admitted as a delegate as far as his crippled and limited condition as a man will permits? [Laughter.]

By a unanimous vote Mr. Cover was admitted as a crippled and limited delegate minus the power to vote.

Mrs. R. Caliahan of Moberly read the report of the Second District of the Union. Her report showed that the district was increasing daily in members.

Mrs. R. Calinhan of Moberly read the report of the Second Distriet of the Union. Her report showed that the district was increasing daily in members:

Mrs. Calinhan spoke of the gallant fight of the crusaders against rum in her district and said that money was now needed to defend the women who had been arrested. She thought that abolition, instead of prohibition, should be the watchword of the Union.

THE PRESIDENT'S ADDIESS.

Mrs. Clara Hoffman, the Fresident, read her annual address. She said that it might be asked how could weak woman battle against the demon drink? Lat the people took back at what woman had accomplished. A pamphlet written by a woman who was denounced as crazy brought about emanoipation in England when Parliament had wrangled over the question for years without having ever accomplished anything. "Uncle Tom's Cabin," a book written by another woman, had done a similar service for this country. She related other things which she claimed woman had accomplished where men had falled. They had fought saloons until every church in the country, except those of the Roman Catholic and German Lutheran denominations, and even some of them, had broken off their criminal alliance with saloons. They were no longer tolerated by the courtches. The Union in this State had to dight both the saloons and the press, for the newspapers dared not denounce saloons for fast of losing subscribers. The women of these people they had gone shead with their work and accomplished agreat deal. Mrs. Hoffman then related the troubles the National W. C. T. U. and having a prohibition plank inserted in the national platforms of the Republican and Democratic parties. While women had no vote they had their political leanings. In low Mrs. Foster

tions had no right to adopt the name of the union. Mrs. Hoffman then scored officers who failed to attend the meetings regularly or performed their duties in an inefficient manner. The speaker recommended that every local union adopt a law declaring years any office when the incumbent had failed to attend three consecutive meetings, except when kept away by slokness or absence from the city. Mrs. Hoffman said Missouri's small towns were cursed with a surplus of courches. She knew that sentence would shock those who heard it, but it was a fact. She knew of towns of less than 1,000 inhabitants, with a half-dozen churches, and no resident pastor.

The METHODIST CONFERENCE SCORED.

The METHODIST CONFERENCE SCORED.

The Methodist Conference now being held here would no doubt pass resolutions denouncing theatre-going and dancing, but would say not a word about their own actions which set such a bad example to the young men. This shot at the ministers was greeted by laughter and some applause.

In reference to the crusades in Missouri Mrs. Hoffman stated that they only occurred in countlies where salcons were outlawed. The women had only closed the salcons after the law had failed to be carried out and dramshops were permitted to run. Yet the press of the country had denounced their action. When a party of men threw a cargo of tea overboard in Boston over 100 years ago because they objected to paying the duty of 3 cents a pound on it, claiming that it was unfair to have taxation without representation, they were termed patriots. Women were taxed without being granted representation; they were termed patriots. Women were taxed without being granted representation; they were termed patriots. ast night made President of the School Board by the members of the faction which bears his name, was busily employed signing checks in the Secretary's office. Secretary Wash informed a Post-Disparch reporter that he would recognize Mr. Miller as President. This means that there will be two boards The members of the Auler faction asserted this morning that they would take no notice

of the action of the Millerites last night, and would continue their organization. They also said that in all probability they would make application for a writ of injunction against the German Savings Institution to prevent the fficers of the Bank from recognizing checks signed by Mr. Miller. At the meeting last night there were ter

members present. They were: Messrs. Holmes, Barstow, Miller, Kelly, McEntire, heahan, O'Connor, O'Connell and Richardon. MILLER RESEATED.

The next event on the programme was the reseating of Mr. Miller as President of the board and Mr. O'Connell as Vice-President. This was provided for in the following resolution introduced by Mr. Holmes:

Whereas, At a meeting of this board held on the lith day of March, 1890, official proceedings, pages 194 and 195, a majority of the persons then claiming to hold seats in this board did assume to remove Charles F. Miller from this office of President and John W. O'Connell from the office of Ice-President, to which said offices they had been duly elected, according to laws governing the board and the rules of this board, for the term of one year and until their successors were duly elected and qualified, at a meeting November 12, 1889; and

12, 1889; and
Whereas, Thereafter at the said meeting of
March II, the said majority of the parties then
claiming to hold seats in this board did undertake to assume and elect one Hugo Auler
President and one H.-L. Bogers Vice Presi-

President and one H. L. Bogers Vice President of this board; and,
Whereas, No sufficient or legal cause was set forth in the resolution under which said proceedings were had, as provided by the rules of this board, and said proceedings were wholly illegal; and,
Whereas, Said resolution was carried by the votes of the following named parties whose rights to seats in this board were then contested by the State of Missouri, through its Circuit Attorney of this judicial district, in the St. Louis Cour; of Appeals by writs of quo warranto, to-wit:

asked Mr. Rassieur whether in view of the Court of Appeals' writ of outer he considered Mr. Rogers still a member of the board. Mr. Rosers could not act as such, but until the Supreme Court had acted upon the proceedings pending before it Mr. Rosers' name could not be stricken from the rolla. Mr. Barstow thereupon said that as long as Mr. Rosers was a member his name ought to be called. It was called and the President pro tem. announced that as there were nine be called. It was called and the President pro tem. announced that as there were nine members present and ten absent there was no quorum. An adjournment had consequently to be taken. The Millerites in appointing Mr. Koenig last night to fill Mr. Rogers' pince showed that they had reconsidered the yiew which they held on May 15 as to whether Mr. Rogers was of was not still a member of the board. Mr. Rogers and his friends claim that the writ of prohibition issued by the Supreme Court in his case acts as a supersedeas to the Court of Appeals' writ of ouster. The Millerites, however, say that this is absurd. You can't prohibit a man from knocking you down after he has already done so, is the flustration they give in support of their position.

TURNER'S TRICK. The Swindling Operation Exposed-The Scattle Fire Donations.

NEW YORK, May 21 .- George S. Turner was arrested in this city last night on a telegram from the Chief of Police of Seattle, Wash., charging him with the larceny of \$15,000. It made by Messrs. Macklin and O'Connell at the last regular meeting on the Kelly-Standing contest be expunged from the records. Mr. O'Connell objected to what he said being wiped out, and Mr. Macklin's remarks only were expunged. A resolution was passed permitting the High School to hire Grand Musle Hall for its exhibition.

The resignation of Mr. Oscar Bollman, the member from the First District, was then read and accepted, and elections were ordered in the First District and Fourth District. The Standard Business man and the two divided the profits. The total amount thus abstracted is over \$15,000. Investigations caused the indict-ment of the two men. McCourt was arrested. by fire about a year ago, a cry for aid brought ment of the two men. McCourt was arrested and held for trial in Seattle. Turner fled to New York. In Jefferson Market Police Court this morning Turner refused to make any reply to the charges and he was remanded to await the arrival of requisition papers.

PROCEEDINGS OF THE WESTERN GAS ASSO CIATION TO-DAY.

in the Country-President Faben's Address and Eugineer Frederick Egner's Paper the Features of the Morning's Session-The Display of Gas Appurte-

Shortly before 10:30 this morning the thirseenth annual convention of the Western Gas Ordinary of the Lindell Hotel. There were fully 200 delegates present, and they were an unusually intelligent-looking gathering of men. It is the largest gas conention ever held in the United States. Alwest of the Allegheny Mountains, nobody is barred and the organization has active, associate and honorary members from all sections. Its object is to disseminate useful social side to the organization, and entertainments are arranged for the delegates at conventions. Much of the success of the present convention is due to Mr. Frederic Egner, the engineer of ex-officio of all committees of the board. the Laclede Gas-Light Co., and Mr. Redmond D. Waish, who have had charge of all the arrangements and have been untiring in their labors. In connection with the convention there is a large dispay of gas engines, machinery for manufacturing gas, testing appliances, burpers, gas stoves and other appliances connected with the gas industry. This display is made on the third floor of the Laclede Gas-Light Co.'s office on Eleventh street, and in many respects is the fluest exhibit of gas appurtenances ever seen in this country. The public, as well as the delegates, are invited to inspect it. the Laclede Gas-Light Co., and Mr. Redmond

appurtenances ever seen in this country. The public, as well as the delegates, are invited to inspect it.

After the convention had been called to order this morning and the minutes read, Mr. t Charles E. Faben, Jr., of Toledo, O., read the President's annual address. Mr. E. J. King of Jacksonville, Iill., who was elected President of the association, died during the year, and Mr. Faben, as First Vice-President, succeeded to the office. Mr. Faben said that the efficiency of the electric light had become generally recognized, and for the lighting of streets or large places it was unquestionably the best system. The incandescent light had also found its sphere and could be used in places where gas could not. Still there was a large field left for gas, and its uses were daily increasing. For heating, cooking and various other purposes it was becoming daily more popular, and it would retain much of its usefulness as a light. Then Mr. Faben spoke of the advantages of gas associations and the good they have done and urged a full attendance at all meetings. The Western Gas Association had lost by death during the year its respected President and four other members. The speaker appointed a Commistee on Memorials on the deceased members and gave a recapitulation of the papers to be read at the meeting. The presenting of applications for membership, balloting on applicants and introducing new members were deferred until to-morrow and so was the hearing of reports of standing and special committees. committees.

committees.

Mr. Egner's Paper.

The rending of a paper, on "The Abuse of the Patent System" by Mr. Frederic Egner, engineer of the Laclede Gas-Light Co. of St. Louis, was then made the special order of the session. Mr. Egner stands at the very top of his profession and his interesting paper received the close attention of the convention. He said that if his paper had the effect of arousing the people interested to the baneful influence of the patent system and checking them he would be happy and the purpose of the paper would be accomplished. He did not want to be misunderstood, however, and that much good had been accomplished by atmulating the inventive genius of man might be seen by any one would look about and compare the state of civilized or barbarian people of the world and reflect upon the cause. It was a mistake to give the whole credit to religion and education, for while they had done useful work they had not helped man to the ease and comfort now enjoyed by the large majority of the people. In the early days of religion and limited education inventors were called sorceres, and were treated accordingly. But light finally came. The patent system had been a few useful inventions followed its introduction, most of the inventions of the great treated according the action of the great was a first and been a few useful inventions followed its introduction, most of the inventions of the great and the man better that a confort the great descended the confort of the great was a first that the patent system had been a few useful inventions followed its introduction. First came thetprinting press, which brought on the newspapers, and too much could scarcely be said in preise of the newspaper, the educator and molder of the opinions of the masses. mightier than the sword." The inventive genius of man gave the world the press and movable type, the steam engine, steamships and railroads, the last named one of the greatest of all civilizers and beneficial institutions of the world, although it, 'too, had been more or less abused. Railroads had developed the great North American continent and opened homes for all inventions, and had done much in the cause of morality, the safety of person and property and the comfort of man.

The pager then took up the consideration of the abuse of the patent system. Mr. Egner said it was abused by two classes, the self-deceived and the deceivers for gain. He then went on to relate instances. First he took up the case of 'a gas economizer company.' having a working model of carbureter protected by letters of patent, which gave it prestige it did not deserve. The company incorporated in Illinois wish an office in East St. Louis. The company soon disappeared, leaving a number of victims who had been deceived by the supposed value of its patent. Then he related a scheme, which followed, to make gas by decomposing water by means of gasoline and the burning for exhibition of the resultant mixture, which gave the practices the burning for exhibition of the resultant mixture, which, of course, gave a brilliant light. The method was aimost as old as gas making itself, but was not used because it did not pay. Without a patent this scheme could deceive no one. Euch practices the paper denounced as swindles, and said that there should be LAWS MADE TO PREVENT THEM.

Other States should adopt a gas and electric light commission similar to that of Massachusetts. Algislators were frequently deceived by these men and passed unjust faws. In concluding his remarks Mr. Egner said the patent system and the United States Fatent Office were to biame for the present abuse of the patent system. The force as the patent office was not half large enough to transact its business. Its abuse with reference to the gas Industry could best be prevented by a

The resignation of Col. Find and the recent election of his successor has called public attion to the importance of the work done by the Board of Pablic Improvements under the duties assigned to it by the charter and the ordinances enacted since 1876. The charter provides that at he board shall consist of the Street Commissioner, the Sewer sloner, the Sewer Commissioner, the Water Commissioner, the Harbor and Whari Com-missioner and the Park Commissioner. The commissioners named are appointive officers, the President of the board is an elected of-floor. The President of the board presides at

its meetings and has charge of all public improvements not spe-cially provided for in the Charter. He has general supervision over all the other commissioners. He authenticates all special tax bills against property chargeable with special taxes and signs all requisitions made by all the departments, and he has direct charge and control of all repairs on public buildings, of all plumbing work and many other duties

The Street Commissioner has under his special charge the reconstruction, repairing and cleaning of all streets, alleys; public places except parks, and the present Commissioner is Chairman of the Committee

Buildings.
The Park Commissioner has control of all the public parks and places and squares of the city except Lafayette and Tower Grove Parks. The present Commissioner is chairman of two committees. Parks and Public Buildings, and is a member of the Committee on Work-house.

There is a popular impression that all the members of the board must be civil engineers.
This is incorrect. The charter provides that only the Sewer and Water Commissioners shall be civil engineers. Neither the President of the board, the Street, Harbor and Wharf or Park Commissioners are required to possess this qualification. The office of President of the board is one requiring executive more than beginnering ability. Whatever necessity may have existed years ago for the appointment of a civil engineer as Street Commissioner does not, it is cisimed by many, exist at the present time. The civil engineers insist that the office properly belongs to a member of that profession.

To-morrow evening the Sanitary Committee of the House of Delegates, composed of Delegates Grassmuck, Slevers, Bogard, Kramer and Huber will leave for St. Paul, which brought on the newspapers, and too much could scarcely be said in praise of the newspaper, the educator and molder of the opinions of the masses. Though the power of the press was sometimes, like the patent system, prostituted to selfish ends, it had, on the whole, done more good in THE CAUSE OF HUMANITY than sword or gun, warriors or orators. They might indeed exclaim mitteewill gothers to investigate its workings.

meld is 176. The work in China was especially encouraging, notwithstanding the relations between this Government and China. The result in Corea is almost marvelous. The treasurer's report was of a less cheerful nature. The receipts of the board from all sources during the year were \$794,065, a decrease of \$58,749,0ver last year, and of \$107,095 in 1887. Deficit carried forward to the new year, \$50,275.93. The number of churches contributing is \$,744, a failing off of 13. The contributions of the women's committees and Sunday-schools saves the deficit from being even larger. Never but once before has the board been se encompassed with trouble. "Something must be doue to raise money. There can and will be no retrenchment. Over \$1,000,000 is needed for the coming year. We are perplexed but not destroyed. We put it on the Assembly to devise some means of assistance." It was asked that a special committee be taken in the church some Sabbath in June or October. The Moderator here requested Dr. Crosby to take the platform. The Assembly rose and stood while Dr. Crosby offered a prayer. Dr. Burrill then made a stirring address in support of the recommendations of the report. He interrupted by the papilause. Hev. Dr. Ellenwood, one of the Secretaries of the board, followed Dr. Fursill. He thought the Presbyterian Church was trying to do too many things with one collection. Dr. Alexander of the Fresbytery of New York and Jessup, a missionary from Syris, also spoke. The report was adopted.

WINNIPEG, Manitoba, May 21.—It is reported here that the Canadian Pacific Railway has purchased the Clarendon Hotel here for \$80, OOO, and will fit it up in elegant form. The step is doubtless prompted by the fact that the Northern Pacific is building a mammoth hotel in connection with their station here, the object being to capture all Southern business. It is also stated that the Hudson Bay Baliway has purchased sixty zores of land in this elty to be used as terminal grounds for the company. The general belief here is that the latter company has made such arrangements with the Dominion Government as will enable it to go on with construction this year.

AN OUTLAW'S PLEA. Facts Upon Which Abe Buzzard Relies to

By Telegraph to the POST-DISPATCH.
PHILADELPHIA, Pa., May 21.—A special dispatch from Harrisburg, Pa., says that the Board of Pardons is hearing the plea of Abe Buzzard, the famous Laneaster robber, who since 1885 has been confined in the Eastern Penitentiary. This is the prisoner's second plea for a pardon, the first having been re-fused. His counsel, H. B. Hassler, presents fused. His counsel, H. B. Hassler, presents affidavits to prove Buzzard's innocence of the burgiary for which he was indicted. Buzzard had given himself up on the hope of showing his innocence and getting pardoned. He, ike Buzzard and a number of companions were sentenced on December 12, 1835, by Judge Livingston to serve out in the penitentiary their unexpired terms, plus fifteen months for jail breaking. For Abe it meant thirteen years lacking one month. The whole band had twice escaped from the Lancaster Jail by the connivance of a keeper. Abe Buzzard's plea of innocence rests now, as five years ago, on the deathbed confession of the woman who, from jailous splie, testified faisely to secure his imprisonment. It was a strange story of unrequited love, of revenge and of hairbreadth secape. Mary Goodenderfer, a young smarried woman of Lancaster, had tried to win the love of the stalwart and handsome outlaw, who was also married. He would have nothing to do with her and when the Steinmetz burglary occurred in Clay township sheswore to his complicity in it, implicating herself as the recipient of the goods. Although the testimony was far from conclusive a verdict of guilty came principally in obedience to popular indignation against the gang of which Abe was the leader. A sentence was pronounced in addition to and of four years for complicity in the Quarryville robbery. This heavy sentence was too much for the outlaw's spirit, and he repeatedly defied prison bars in a way that set mysterious rumors aftest of divine interposition. It was this defiance of the authorities in last the robber-chief's friends and hence were little headed. It was not until shortly before Abe's surrender to the authorities in 1835 that Amos Rutter and other prominent citizens of New Holland had sufficion belief in the story to investigate it. It came out then that Mary Goodenderfer's perfury to secure pardon.

Runors of a confession ween first circulated by the robber-chief's friends and hence were little headed. It was not until shortl affidavits to prove Buzzard's innocence of the burglary for which he was indicted.

After June 1 the grain dealers will cease holding their curb in the Mining Exchange. Some controversy arose concerning the erection of a telegraphic counter, and many of the members of the Mining Exchange complained of the destructive proclivities of the grain dealers, instancing the delapidated condition of many of the seats. The upshot of the matter was that the grain men decided to seek other quarters.

The following quotations were made en call this morning:

Nearly all the trading was done immediately after call, and during the latter part of the session the floor of the Mining Exchange was almost abandoned. So profound was the silence that a large rat crept out of a hole, and rambled undisturbed on the floor for some time. The discovery and pursuit of the rodent called forth a momentary activity among the brokers, but on the escape of the animal the floor resumed its former quietude.

"There is no road in the West that is operated as economically as the Frisco, as a reference to its figures will show for years past, and yet the property is in thoroughly good physical condition. The statement as to the overissue of the A. & P. bonds is untrue, and has no foundation in fact, as is well-known by the United States Trust Co. of New York."

If the entire statement is as truthful as the last part of it, it is entirely false, as a letter from the

from the UNITED STATES TRUST CO.
to a banker in this city, written some time ago and handed to a POST-DISPATCH reporter this morning will show.
It reads as follows:

To H. M. Noel & Co., Bankers, St. Louis:

DEAR SIR—I beg to acknowledge the receipt of your favor of the 3d last., and to reply so far as possible to your inquiries concerning the Atsantic & Pacific Railroad Co. 's bonds.

This company, as trustee under the first mortgage (Western Division) of said railroad, has certified and delivered \$16,000,000 of said bonds, under requisition, from time to time by said railroad company. Having had no connection as trustee or otherwise with the central division we are unable to give you any information respecting the issue upon that section of the road. Yours very truly.

Becretary United States Trust Co.

From the company's own books it is shown that the distance from Albuquerque to Needles is 575 miles. When the 'Prisco decided to extend their line they agreed to issue \$16,000,000 in bonds and build the road at a cost of \$25,000 per mile, which would equal \$14,375,000, or \$1,622,000 less than allowed. A guarantee was then given that the surplus or retire the bonds. It has done neither, and there is sail an over issue of \$1,625,000 in bonds on that section of the road, as shown by the books of the company. Other information from the inside as interesting as that made public lass week is expected soon.

THE 'FRISCO ROAD SOLD TO THE ATCHI-BON, TOPEKA & SANTA FE-

Opening Un the Great Southwest and Giving an Eastern Outlet to the Atchison, Be-sides Benefiting Several Eastern Roads-A Straight Track to Both Oceans-That Over-Issue of Bonds Again.

The prediction made in the POST-DISPATCH of last Sunday that the St. Louis & Francisco Railroad would be soon was fulfilled yesterday in New York city when the control of the stock and Board of Directors passed into the control of the Atchison, Topeka & Santa Fe vidual stockholders in New York reached here this morning confirming the report.

The sale was not a surprise except as to the suddenness of the transfer. It was the consummation of a plan cut and dried before the meeting of the old Board of Directors of the 'Frisco when the vacancy made by Mr. John O'Day was filled. Only a few days ago the new board met in New York City, elected officers and called a special elected officers and called a special meeting of stockholders to be held in this city July 21 next. In the East and on Wall street it was generally supposed, and for good reasons, that Huntington and Gould were making efforts to get the control, and again that the Atchison was trying to lease the Frisco. No one, or at least only a few, knew the new board had arranged differently, and without the assistance of Mr. Gould or any of the railroad kings.

GOULD'S ANXIETY

coard had arranged differently, and without the assistance of Mr. Gould or any of the railroad kings.

GOULD'S ANXIETY

to secure the 'Frisco Road is said to have been very great, for the reason that the control of it in any other road's hands, and particularly the Atchison, would work harm to the Missouri Pacific and Iron Mountain system. It opens up the entire southwest for the Atchison, whereby it can compete with the Iron Mountain and Missouri Pacific and through the Atlantic and Facific. A part of the Frisco system, it will reach the golden shores of the Pacific ocean, an opening the Atchison has long desired. On the east the control of the 'Frisco gives the Atchison an outlet over the Pennsylvania and Chicago & Alton Roads. Some have gone so far as to say that these two last named roads were even instrumental in bringing about the saie, the Pennsylvania thus being, enabled to extend its system west of the Mississippl and the Chicago & Alton to secure a trans-Missouri connection.

Though a strictly Western road the new operations of the Atchison will influence the railroad circles of the West. What the plans of the company are is not vet known, and it is hardly probable that the new combination has any well-defined plans.

THE PROPERTY

La Union was one of the few stocks in which there was any considerable amount of trading; 10 was asked for the stock and this offer was accepted, 2,000 shares changing hands. More was wanted at that price, but could not be obtained and reading could not be obtained from St.

west through Missouri, Kansas, Indian Territory and Texas. In 1889 its mileage was 1,329 miles. The gross earnings in 1889 were said to be \$6,009,300, and the net earnings \$2,502,270. The capital stock was \$26,539,300; bonded debt \$86,900,500. The net earnings per mile for 1889, is said to have been \$19,834 and the cost per mile \$27,239. These figures are questioned and corrected in the circular compiled by one on the inside and printed exclusively in the Post-Disparch last Sunday. The circular is said to be discredited in Boston, the home of the Atchison directors, and a Boston man whose name is carefully withheld is credited with saying:

Chicago is the grasshopper on the load of hay, so far as its influence upon the 81. Louis market goes. R. H. Davis of Carrollton, Ill., says: "The prospects for wheat in our section are worse than they have been reported. It looks now as though we wouldn't raise any wheat."
Several specimes of wheat that had headed out "cheat" were shown to-day. One represented the crop of a 60-acre farm in Petius County, Mo.
Last week's exports from India were 672,000 bu, and from Baltic, Australian and other ports \$,120,000 bu. No wonder the amount on ocean passage increased over 2,500,000 bu.
The worker of the country of the co Liverpool, 93,000 for Dublin and 103,000 for Copenthe following from this morning's Chicago 'Herdil' was wired the D. R. Francis & Bro. Commission
Co.: 'It is a long time since any outside speculating
coterie cut the figure shat the 'Art Club' of St.
Louis is cutting here now. Ryan and Thyson and
Puff and Davison are really dividing the interest
here with Hutch. Their business has really put Logan's commission trade ahead of everybody sies's in
the pit during the last sixty days. This prominence
of a St. Louis crowd is all the more remarkable in that it is on a bull market.
Kautfman and Mose Fraiey in days gone by were
enormous traders on the short side. Abs Poole declaring that Kautfman was once short 7,000,000 bu
through him, but it is deubtful if Kautfman evan in
his plunging days was as influential as the Ryan
fraie the creat Chicago operators, with the single exception crowd is now. One reason tor the great Chicago operators, with the single exception of Rutch, have seen complying the supply of wheat and The United Kingom' pouls supply of wheat and The United Kingom' pouls supply of wheat and The United Kingom' pouls supply of wheat and I have the "coal-close," a pessiferous little "varmint" that desiroys cats, has gotten into wheat. It can not hust well-grown wheat, but young and sender wheat of late sowing is killed by the louse, A box of these bugs from Harrisonville, Ill., was received to-day.

The last report issued by the Italian Arricultural Ministry says: "The condition of the growing crop is almost everywhere fair's satisfactory. Maize sowings continue. Some damage has been occasioned by high winds and heavy rains in South Tiely."

loned by high white and teeth the condition of the new wheat plant is still all that may be desired. Though the weather is by no means mild and what ought to be experienced in the present season, oc-casional copious showers of rain greatly assist the development of the crop, which has a strong and arithy angarance. wm. Pollock, whose father is a miller at Mexico,
Wm. Pollock, whose father is a miller at Mexico,
Mo., says they intended building an elevator, but
orop prospects are so poor they do not feel justified
in doing so. Wheat that a few weeks ago looked
fatrly well is turning out poorly owing to fly and
cheat.

Another and entirely new section of the country to raise the cry of "cheat" is Maryland, a telegram from Baltimore reporting "wheat plants with chest heads on them appearing."

About two years ago Carney had trouble with a fellow-workmen whom he suspected of being too intimate with his wife and left for Missouri, taking the oldest of the three children, a daughter with him. Since that time the woman has been going from bad to worse until this morning she ended her missrable life in the manner above described. The two children at home were boys aged 7 and 10 years respectively.

LACK OF LAW.

United States Officers Can Not Arrest Criminals in Indian Territory.

KINGFISHER, I. T., May 21 .- Since the pas-States authorities have no power to arrest oriminals, as evidenced by the following: Monday Samuel Moore, residing in Black Jack County, shot and killed Samuel Griffin. The days ago Griffin went to Moore's house and days ago Griffin went to Moore's house and drove his wile into the yard. Returning Monday, the quarrel was renewed and Griffin attempted to shoot Moore, but the latter emited a shotgun into him, killing his assailant. Moore then came here and offered to surrender himself to the authorities. The United States Commissioner refused to Issue a warrant on the ground that since the passage of the territorial act he has no jurisdiction. The United States Marshal had no authority to hold him and the military commander refused to have anything to do with it.

PORTLAND, Ore., May 21 .- C. E. Hooper who has just returned from Tillamook, says

mismanagement at the Soldiers' Home terminated their labors very abruptly yesterday,
and after being together for three or four
hours came to the conclusion that there was
nothing to be investigated. One of the committee said there was nothing to find fault
with and much to be commended; that the
complaints made were doubtless by members
who were chronic grumblers or else their
minds were in such a condition that they
were not responsible for what they said. All
the buildings were inspected by the committee, which passed a resolution commending
Gov. Smith's management.

of the persons whose leathe were laid at Soquet's idoor were his wives. The first crime

with which he is charged is killing his little son by hurling him down a flight of stairs with the avowed intention of taking his life. The child's mother caught up her boy as he lay bleeding and mangled and started for the priest's house, but the little lad died in her arms before she reached her destination. This wife soon followed her son, having, it is said, been put out of the way for Mrs. Soquet No. 2.

MRS. SOQUET RO. 2.
At this time the Soquet family were living on a farm in Brown County, seven miles from Green Bay. August Mansart and wife were hear neighbors. Mansart died suddenly, and when his body was exhumed eight grains of arsenic , were found in his stomach. Two weeks after Mansart's sudden demise, Mrs. oquet died with the identical symptoms accompanying the death of the farmer. After quite an interval her grave was opened, but it was found that the body had disappeared. In the meantime Soquet and Mrs. Mansarz were married, but they could not agree and the woman began proceedings for a divorce, during which she disclosed many of her husband's secrets. She charged

her husband's secrets. She charged Soquet with having murdered Mansart by mixing arsenio with some griddle cakes. While Soquet's wife, she of course was not a competent witness against him, and the guilty man rested easily. However, a divorce seemed so probable, that on the evening of December 31, 1886, he went, revolver in hand, to Mrs. Mansart Soquet's home. From that day not a trace has been seen of the woman, aithough a letter has been received purporting to come from her, stating that she was allye.

A HORRIBLE SUSPICION.

Neighbors allege that they heard shrieks in the house. Signs of a struggle and blood were found in the house, and the track of a hand sled from her house to his. The little grand-children of Soquet say: "Grandpa baked two whole nights in the oven, but he did not bake any bread."

The statement of the children can lead to but on horrible conclusion. Another fact against the bellef that she fied is that she did

FRANKFORT, Ind., May 21.—Sunday night a gang of thieves planned the robbery of Uncle Tommy Durbin, an aged farmer, who lives near this city. Deputy Sheriff Baker heard of the scheme and took a force of men to the house and scoreted them about the premises. The old man was told to let anybody in who came. At 10 o'clock there was a rap at the door. It was opened, and a revolver was thrust in his face and he was ordered to give up his cash. He grave them a few dollars. At this point the officers closed in upon them and captured three of the four robbers. They were found to be the Hill boys, Jasper, Bort and Charley, a notorious family that have given the authorities here a great deal of trouble.

The Effect of the Recent Decision of the Supreme Court. ITHACA, N. Y., May 21 .- A representative of

Adams yesterday to obtain from him an expression of opinion upon the status of the adverse decision in the McGraw-Fish case. In

who has just returned from Tillamook, says that, May 5, while carrying supplies into she mountains south of Tillamook, Wm. Ryan was chased by five courars and forced to take refuge in an old cabin. The cougars stayed all night making desperate efforts to get at him. In the morning a man with a gun arrived at the cabin and drove the brutes away, killing one, which was a monster, measuring lifeet in inches from tip to tip. Mr. Hooper says that the only mails they have had at Tillamook for the mountains on snowshoes or carried in by sailing wassels.

Discontent on the Atlanta.

NEW YORK, May 21 .- A private letter re ceived in this city from an officer on board the United States steamer Atlanta of the the United States steamer Atlanta of the Squadron of Evolution, referring to the reports of discontent on board the man-of-war, says: "Discontent undoubtedly prevails to a great extent in the squadron among both officers and men, but it is due to a rather arbitrary commander-in-ohief, who overlooks no mistakes. Among the men it is due to the presence of a larger than usual number of landsmen and merchant sallors, who are unused to naval discipline.

Wronged Husband Kills His Wife and Her aramour at Jesque, Ga.

Telegraph to the Post-Dispatch.

JESSUP, Ga., May 21.—A frightful tragedy busband, and the mortal wounding of County Surveyor McCall of Ware County. J. M. Mc-Call, County Surveyor of Ware County, came to Jessup from Brunswick about 10 o'clock p. m. and stopped at the Littlefield house. He to Jessup from Brunswick about to Jessus promises. He retired to his room an hour laser. After staying in bed for two hours he came out and went down stairs in his night-clothes and asked for Mr. Littlefied, but could not find him. He then went to Mrs. Littlefield's room door and knocked. She admitted him. Mr. Littlefield was on the front porch watching him, and finding them in a compromising situation, he rushed through the window into the room and shot his wife just over the left eye, killing her instantly. She never spoke. He then shot Mr. McCall four times. One ball struck him in the lip just under the nose, one in his right side, one in the left shoulder and one in the small of his back. McCall ran from the room where he was shot into the room where Mr. Surrency was asleep and fell. Medical aid was summoned at once, but he died at \$2.20 a. m. The shooting occurred at a few minutes before 12 o'clock. Mr. McCall was about 50 years old, with a large family, having grown children, and the family stands very high in the estimation of the community. Mr. Littlefield is about the same age. His wife was about 40 years of age. They came from Massachusetts, and have been living in Jessup for twenty years.

Voters' Letter-Bex

Br. Louis, May 19, 1890, To the Editor of the Post-Dispatch:

In your issue of May 16, I received a very flattering testimonial from "One of the Orat" in Chicago, Ill-, and now I wish, through your columns, to return my sincere thanks to him or her, as the case may be, for the kindly words. I wish also to express my thanks to the Post-Disparatin for the inauguration of an enterprise which has been the means of bringing to me (and doubties many others) so many loving letters and expressions of kindly remembrance from pupils of both past and present years, and which I would scarcely exchange for the covised trip to Europe. Such words of love and grastitude are not only a reward, but coming and escouragement to its heart'-of a teacher. Hoping span and the past was the more jeys than heart-aches may be the result of

Changes are the order of things in the achers' election to-day. There is a revoluion among the leaders, as will be seen by the st below, and the introductory remarks that

Voters and teachers are referred to many nteresting letters published in the Voters Letter Box to-day, and especially to the open Webster School. Mrs. Watson is a teacher of many years' experience, a leader in her profession. She finds much good in the elect outside of the trip to Europe, and she thinks these other features outweigh and overshadow the prizes.

The attention of the public is again cailed to the closing rules of the contest, as formulated by Judges Specht and Frank. Here they are in brief. Read them. They will be strictly carried out.

CLOSING RULES IN BRIEF.

The last ballot will be printed in the next Sunday Post-Dispatch," May 25. The sale of copies of the "Sunday Post-Dispatch" containing the last ballot will

close Tuesday, May 27, at 6 p. m. under any circumstances, after 12 o'clock noon of Wednesday, May 28, when the polls

The official result will be announced on Sunday, June 1. All counting of ballots will stop this

Wednesday evening, May 21, at 6 p. m. No envelopes, etc., will be epened at all after that time until the polls close on Wednesday, May 28, at noon. So that needy, not even the sworn tellers, will know what the figures are during the last week.

The last list of the standing of the teachers will be printed in (to-morrow) Thursday's Post-Dispatch," May 22. It will give the result up to 6 p. m. to-day, based on the last count, referred to in the preceding paragraph. It will contain all the candidates. Special orders for copies of next "Sunday Post-Dispatch" containing the last ballot which are in the "Post-Dispatch" office Saturday next, the 24th inst., will escape the rush at the close of the contest.

THE BLECTION. The election is on the boom. The rush of ballots is enormous. The letters that accompany them are so many that it is impossible to print half of them. Selections have to be made. Voters who want to know whether their ballots have been received are again informed that it is impossible to comply with such requests. It would take a dozen clerks

or a dozen pages of the paper to answer such questions. All ballots properly directed reach this office and are on file here.

ANOTHER WARNING.

Be sure to put your teacher ballots in separate envelopes from your guesses. If not, you will lose your guesses after to night. The rules above provide that no ballot package can be opened after to-day at 6 p. m. until the election is over. Consequently guesses to such packages will be lost to sight when the guessing contest closes next Saturday night at 10:30 p. m., and will therefore be for no aveal.

TO-MORROW AN EVENTPUL DAY.

To-morrow will be an eventful day in the election. The last list of the sk-inding of the teachers will be printed, until the official and final list appears on Sunday, June 1. After to-day at 6 p. m. nobody will be allowed to count, look at or open key ballots. All packages will remain as it, y arrive until the polls ages will remain as they arrive until the poils are officially closed by the judges at 12 m. on Wednesday, May 22. Nobody will have any knowledge of what happens between 6 n. in. to-day and 12 m. on Wednesday. It will be all mystery and impenetrable darkness. Voters are requested to assist in carrying out secreey, by omitting from all packages the names of the teachers and the number of ballots constant. Wrap them so that they cannot be een in any way.

The First 200 To-Day.

Below is given the list of the first 200 lady teachers, corrected up to 6 p. m. yesterday. If you do not believe voting has been lively along the line, look at the changes. Miss Madge Frederick of the Stoddard has taken first place, which Miss Anna B. Boyd of the Bates held yesterday. But Miss Callie A. Pritchett of the Shaw also moved up and Pritchett of the Shaw also moved up and passed Miss Boyd, and the result is that the leader of vesterday is now in third place. Mrs Rose W. Fanning of the Pestalozzi and Miss Lucy Calhoun of the Crow retain their places as fourth and fifth. But Miss Margaret L. Wataon of the O'Falion is a surprise. She has gorie sailing from eighth to sixth place, over Mrs. Marie Erskine of the Everett and Miss Rosalle Kaufman of the Peabody, both or winom headed her yesterday. Next, is Miss Alice Kearney of the Penrose, has made quite a run. Thirteenth yesterday she is eleventh to day, advancing the two pegs over Miss Elia F. Stearns of the Elleardsville and Miss Gertrude Wright of the Sumner High. Miss Jane Halliday of the Carr Eane, is coming with a rush. Since yesterday's list appeared, she has passed in succession in her upward march Miss Vonda Cohea of the Webster, Miss A. Jennie Keliy of the Mullanphy, Miss Kate Neenan of the Carondelet and Miss Emma Maguire of the Pope. Miss Halliday is now seventeenth. She was twenty-first yesterday. Miss Cohen passed Miss Kelly, too; so that the latter loses her place. But the changes are too numerous to saumerate them all. Compare yesterday's list with to-day's; you will find much food for reflection.

Frederick, Madge—Stoddard. passed Miss Boyd, and the result is that the

Sr. Louis, May 19, 1890. To the Editor of the Post-Dispatch: To the Editor of the Post-Dispatch:

Please accept votes inclosed for Mrs. Marie Erskine, the former worthy, estimable and beautiful principal of the Shaw, and now the able and efficient manager of the Everett.

The inspiring influence of her genial presence is left by teschers and pupils alike, and as an able instructions she stands second to mone. The market is the expense of the most popular paper on record, the Post-Dispatch? I hope she may win the trip, as there is not a more deserving candidate in the field.

ST. LOUIS, May 20, 1890. To the Editor of the Post-Dispatch: To the Editor of the Post-Dispatch:

The young lady I have been voting for appears to be like the man that fell out of the balloon. "She lan't in it." I do not know any of the leaders, personally, but judging by the way Mrs. Fanning's friends speak of her she must be deserving of a trip to heaven.

Therefore please credit the inclosed votes to Mrs. Fanning, wishing this kind deserving teacher a hearly "Bon Voyage."

NORTH LITTLE ROCK, Ark., May 19. To the Editor of the Post-Dispatch: To the Editor of the Post-Dispatch:

Inclosed please find one vote for my dear teacher Miss Otthile Glitz. Having been away from St. Louis on a visit to my sister I notice through the Post-Disparch columns they are casting votes to send the most popular teacher so Europe. Therefore I feel it my duty as well as a great pleasure to send in my vote for I think one of the most worthy teachers of the Public Schools. I am glad you had such a true sketch of her noble qualities. I know my dear old school mates will all cast their votes to bring her to the front. Hoping when I next hear from her she has won the prize, I will close.

NELLIE CHAPMAN.

To the Editor of the Post-Dispatch: To show what two little tots can do we send you seventeen votes for our teacher, Miss Viols K. Heltzell of Divoli School. We wish we could send her to Europe, for we think our teacher to be the kindest and the best and deserves all the pleasures we can give her.

acquainted. If she is as smiable, pleasant and popular there as she is out here she surely must win.
WILLIE HERBERT WARD. BELLEVILLE, Ill., May 17, 1890.

To the Editor of the Post-Dispatch: Please find inclosed twelve guesses on teachers' contest, also one ballot for Mrs. Brockman of Clinton School. I wish Mrs. Brockman would get it. She is the best teacher for the little ones and she deserves a trip te Europe.

ST. LOUIS, Mo., May 18, 1890. Fr. LOUIS, Mo., May 18, 1890.

To the Editor of the Post-Dispatch:

Please look for one little vote for dear Mrs. Rose
Wright Fanning. I am not acquainted with her, but
no doubt she must be a lovely lay'y, I hear her spoken
of so very highly, it is certainty hard to find anyone
perfect, but Mrs. F. comes nearer than anyone I
know. I hope she will go to Europe and lead the
race from 10-day on. I am electioneering for her at
the Stodgard and in my papa's dancing school.

Sr. Louis, May 19. To the Editor of the Post-Dispatch:
Inclosed find one more ballot for Miss Ella F.
Stearns. Where are her friends and scholars? I
have tried to rally them, but they have treated her
shabby in withholding their support. It is not because they love her less, but other interests have
caused them to let the opportunity to show their
esteem pass by. Wake up to her support one and all,
JOSEPHINE THIAY.

ST. LOUIS, May 19. Inclosed find votes for Marie Erskine of the Everett School. She is deserving of all these and more too for her kindness and good nature as a teacher. She is one of the best in the city, and I wish her to be one of the successful ones to capture the prize.

Sr. Louis, May 19. Sr. Louis, May 19.

To the Editor of the Post-Dispatch:

Arriving in the city Sunday morning I immediately sent for a P.-D. (my favorite, paper) and therein noticed the "teachers' contest," and as I received my sarry aducation in the St. Louis public schools, I thought I would giance over the names and see if any of my former companions were represented, and looking over it same across the name of Miss Maggio tailard, and supposing it to be the "little blue-syed fairy" who attended the Elliot School with me I cast my votes for her, and if I did not have to leave for Chibashau lo-night would see that she came to the front. Hoping that she may syed do se, I am

friends stay by her. There is always great estisfac-tion in voting for a winner, and if some of the people who are voting for their favorites that are hopeleastly behind will concentrate their strength in Mrs. Fan-ning's favor they will vote for a winner and be in-strumental in sending to Europe the best and most conscientious lady teacher St. Louis has ever had, Mrs. Rose Wright Fanning of Pestalogsi.

OLD FRIEND FRANK.

To the Editor of the Post Dispatch:

I will ask of you to publish the following with answer: Inclosed find two (2) votes for Miss Jennie A. Keiley of Douglass Branch, and pleass ist me know if you received my last letter which had four votes within for Miss Jennie A. Reiley. I hope the scholars whom she taught in Hamilton Behool, room No. I, will not forget her, but will send in their votes for her.

Sr. Louis, Mo., May 16, 1890. The POST-DISPATCH is a lovely paper, but it would be much nicer if it would send our beloved teacher. Miss Neilis J. Sheridan, of the Bates School to Europe. She deserves to be sent to Europe, because she is so kind to every one. I think she is as popular as any other teacher. I would like to see Miss Sheridan salling off to Europe.

WINNIE COMER.

ST. LOUIS, Mo., May 19. To the Editor of the Post-Dispatch:

I notice that you have omitted the name of Miss Josephine Minks of the Lyon School. I sent her yotes in last Monday.

To the Editor of the Post-Dispatch:
Only a few more days now for the friends of Miss
Stella B. Stith of the Lowell School to send in their
votes, so hurry up you who have been holding back,
and if we cannot get her the trip to Europe we may
show her popularity by getting her name near the
top. If her scholars are too young for such things
why don't the parents do their duty? Wake up,
everybody.

To the Editor of the Post-Disnatch:
Inclosed you will find eleven guesses for three in our household. I hope they will either one win. I should like to know what has become of Miss K. Callahan's friends. Why do they not end her to the top? as she is one! hope will win the prize. It is time they should hustle. She is a jovely teacher and needs a tip as woll as anybody. She composes lovely poetry and will be a credit to our schools. I noticed some poetry about Miss Boyd and Mrs. Fanning in your paper, written by Paul Winter. It was just lovely. I hope Paul Winter will win the guess. How old is he?

Please credit inclosed in favor of Miss Anna Boyd.

Hope she will go Europe. The general option
seems to be for some old teacher to get the trip to
Europe, but I say the young teacher is just as deserving. Hoping my old school will have the pleasure of sending their favorite, I remain.

BISHOP LITTLEJOHN'S ADDRESS BEFORE THE EPISCOPAL CONFERENCE.

Vant of Christian Training in the School Room and the Responsibility Therefor-Sabbath Desceration by Pleasure Seekers and Base Ball Devotees-The Stewart

By Telegraph to the POST-DISPATCH.

NEW YORK, May 21.-The annual address which Bishop Littlejohn delivered yester of the Episcopa Church of the Diocese of Long Island, held in the Cathedral of Gar 营 thing of a commotion touched on was the public schools, the 壓

want of morality and religion, which he conlie Church was respon sible for. The system as at present maintained, he said, would not last, and he urged the appointment of a committee to act wit ther denominations to secure the desired reforms. He also suggested a vigorous war-are against the descration of the Sabbath,

"I have known," he said, after discussing the school question at length and pointing out the want of religious training, "that there was another force at work upon this problem f more intense energy and ultimately not less decisive in its action, viz: The Christian conscience of the American people. One side of this conscience, as represented by the Roman Catholic Church, has not hesitated to speak its mind with boldness and power and on a great scale to act up to its convictions. I do not intend to pronounce any harsh judgment upon the course pursued by this church toward our public school system or to attribute to it any motive not freely avowed by done has been very effective in eliminat-ing from the schools of the nation well nigh every vestige of the religious and

Alleged Attempted Abdustion. Last evening at about 8 o'clock Officer St. Last evening at about 8 o'clock Officer St.
John arrested August Summers, an ex-convict, in the G. A. R. Hotel on Christy avenue,
near Second street, on complaint of Ars.
Donguevan, who said the ex-convict had her
little boy, Bereaux, aged 12, in his possession.
The little boy said he was approached by
Summers last Friday evening on Graad
avenue. Mrs. Longuevan lives at 4017 Pleasant street. Summers bought the boy candy,
fruit, etc., and said he waned to get a boy to
work on a farm. Then he called at the house
of Mrs. Longuevan, and after a talk with her
she permitted the boy to go with him. Then
she heard that her boy was in the Christy
avenue saloon, and the officer made the arrest.

Summers is about 60 years old, and has a number of aliases. He has spent about one fifth of his life in prison for different offenses. He refused to say what he wanted to do with the boy.
